SKILLS

WEB DEVELOPMENT

Primary:

NodeJS • Java • Angular • React
MongoDB • PostgreSQL • MySQL
AWS Services • GraphQL • Stripe

Frameworks:

Express.js • Nest.js • Spring Boot •
Loopback

PROJECTS

PERSONAL WEBSITE

[gaiusmathew.com](#) (for additional
information and projects)

DEV MUSIC

[music.on.dev](#)

- Curated music platform for developers.
- Songs to listen during working.
- Learned more about development to deployment of a project.
- Complete source code in [Github](#).

CODESHARE

[code-share.live](#)

- Real time code sharing application
- Tech Stack - NextJS, Tailwind CSS, Express.js, Prisma, PostgreSQL
- App is currently in development.

EVENT MANAGEMENT

[view-screens](#)

- The Event Management App simplifies participant registration for events, offering seamless organization and efficient management.

STRIPE PAYMENT PLUGIN

[source-code](#)

- Plugin for integrating stripe payments API in vendure platform.

EXPERIENCE

SPERIDIAN | FULL-STACK DEVELOPER

Oct 2021 - Present | Bangalore, India

- Led a team of developers to create the automated campaign management system that helped customers to send 20000 plus rich media campaigns to WhatsApp and Emails per day, previously it was less than 500 (manually sending each campaigns).
- Cheque Request Automation: Led the development and implementation of a streamlined Cheque Request feature using Spring Boot and Oracle SQL Developer. Achieved a significant reduction in processing time, improving customer satisfaction.

Banking App | JAVA FULL-STACK DEVELOPER

- Cheque Request Automation: Led the development and implementation of a streamlined Cheque Request feature using Spring Boot and Oracle SQL Developer. Achieved a significant reduction in processing time, improving customer satisfaction.
- Implemented automated workflows for Cheque Request processing, resulting in a 40% reduction in turnaround time.
- Welcome Kit Enhancement: Spearheaded the enhancement of the Welcome Kit feature, optimizing the customer onboarding experience.
- Role-Based Logins: Designed and integrated role-based logins to enhance system security and user access control.

Leveraged Knowledge : Java, Spring boot, Oracle SQL Developer, Angular

REVYRIE GLOBAL | FULL-STACK DEVELOPER

April 2019 – July 2021 | Trivandrum, India

- Implemented a Healthcare workforce solution that reduced waiting time to staffing nurses for hospitals in the US, by using an automated broadcasting algorithm that makes calls and SMS to schedule nursing availability when the demand arises.
- Led the development team in creating an E-commerce app using NextJS and Node with features similar to Salesforce.

Go RN App | FULL-STACK DEVELOPER

- A one-stop healthcare workforce solution that assists and facilitates adequate and specialized staffing, scheduling, geo-location (check-ins and outs), broadcasting, and shift reviews, and saves time and money!
- Our application is doing a significant role in helping hospitals and patients during corona pandemic.

Leveraged Knowledge : NodeJS, Microservices, Loopback, PostgreSQL, AWS Lambda, AWS S3, Angular, Twilio

Sipsetter | LEAD DEVELOPER

- Sipsetter is an E-commerce app for selling wines across the US.
- Implemented most of the plugins used in Salesforce [Gift Cards, subscription products, shipping and promotions].

Leveraged Knowledge : NodeJS, NestJS, GraphQL, PostgreSQL, AWS, Next.js
