SKILLS

WEB DEVELOPMENT

Primary:

NodeJS • Java • Angular • React
MongoDB • PostgreSQL • MySQL
AWS Services • GraphQL • Stripe

Frameworks:

Express.js • Nest.js • Spring Boot •
Loopback

PROJECTS

EVENT MANAGEMENT APP

Project Repository

- Open-source event management platform for non-profit organizations with role-based access control
- Features: Pre-registration, participant tracking, dynamic event management, admin dashboard
- Tech Stack: Angular, NestJS, PostgreSQL, hosted on AWS (EC2, RDS)

Streamlines event organization with comprehensive participant management and administrative controls.

STRIPE PAYMENT PLUGIN

source-code

- Plugin for integrating stripe payments API in vendure platform.
- Easily pluggable module

EXPERIENCE

EPAM SYSTEMS | SENIOR SOFTWARE ENGINEER

Sep 2024 - Present | Bangalore, India

Financial Banking Application | BACKEND DEVELOPER

- Developed robust backend services using TypeScript and GraphQL, implementing advanced security protocols for financial transactions and ensuring data protection.
- Engineered high-performance backend microservices with MongoDB, reducing boot times and enhancing application responsiveness.
- Designed and implemented user-centric features for digital banking application.

Leveraged Knowledge : TypeScript, GraphQL, MongoDB, Angular, Backend Development

SPERIDIAN | FULL-STACK DEVELOPER

Oct 2021 - Sep 2024 | Bangalore, India

- Led a team of developers to create the automated campaign management system that helped customers to send 20000 plus rich media campaigns to WhatsApp and Emails per day, previously it was less than 500 (manually sending each campaign).

Banking App | JAVA FULL-STACK DEVELOPER

- Cheque Request Automation: Led the development and implementation of a streamlined Cheque Request feature using Spring Boot and Oracle SQL Developer. Achieved a significant reduction in processing time, improving customer satisfaction.
- Implemented automated workflows for Cheque Request processing, resulting in a 40% reduction in turnaround time.

Leveraged Knowledge : Java, Spring boot, Oracle SQL Developer, Angular

REVYRIE GLOBAL | FULL-STACK DEVELOPER

April 2019 – July 2021 | Trivandrum, India

Go RN App | FULL-STACK DEVELOPER

- A one-stop healthcare workforce solution that assists and facilitates adequate and specialized staffing, scheduling, geo-location (check-ins and outs), broadcasting, and shift reviews, and saves time and money!
- Our application is doing a significant role in helping hospitals and patients during corona pandemic.

Leveraged Knowledge : NodeJS, Microservices, Loopback, PostgreSQL, AWS Lambda, AWS S3, Angular, Twilio

Sipsetter | LEAD DEVELOPER

- Sipsetter is an E-commerce app for selling wines across the US.
- Implemented most of the plugins used in Salesforce [Gift Cards, subscription products, shipping and promotions].

Leveraged Knowledge : NodeJS, NestJS, GraphQL, PostgreSQL, AWS, Next.js
